Experience

Software Engineer (Full stack)

Sept. 2022 – Jan. 2024

Clozd

Lehi, UT

- Worked as a full stack engineer to plan and execute on projects with my team. Collaborated with PMs, fellow devs, UX, and QA to see projects to successful completion. Focused on code quality and maintainable solutions. Wrote automated tests to ensure quality and reduce bug counts. Leveraged AI in creative ways to augment my skills as a developer.

Web Engineer III

Nov. 2017 – Jan. 2022

Rosetta Stone

Seattle, WA

- Worked on core consumer facing Rosetta Stone websites. Increased sales through a focus on performance and a great user experience. Attention was paid to usability, localization, and representing the Rosetta Stone brand.

JavaScript Application Developer

Jun. 2017 – Nov. 2017

INRIX

Kirkland, WA

- Worked on a team to create JavaScript applications for the OpenCar platform to run in cars.
- Built a variety of apps for well-known services including Yelp, Napster, City Seeker, Deezer, etc.
- Main technologies used included JavaScript/ES6, CSS3/SCSS, and HTML5

Front End Web Developer

Oct. 2016 – Apr. 2017

Affirma Consulting

Bellevue, WA

- Built custom web solutions utilizing front-end best practices, HTML, CSS, and JavaScript.
- Worked with a variety of clients: Microsoft, The Pokémon Company, Kaiser Permanente, and Avista
- As a developer, worked on a team consisting of designers, developers, PMs and QA to deliver web experiences that brought full customer satisfaction

Web Developer

Mar. 2014 – Oct. 2016

Building Information Systems LLC (Building/)

Bellevue, WA

Freelance Web Developer/Designer

Sept. 2012 – Mar. 2014

RBL Creative Solutions, The Decker Group

Rexburg, ID / Sammamish, WA

Web Developer

Sept. 2012 – Jun. 2013
