Experience

JavaScript Application Developer

Jun. 2017 – Nov. 2017

INRIX

Kirkland, WA

- Worked on a team to create JavaScript applications for the OpenCar platform to run in cars. The OpenCar development system is an object oriented JavaScript platform which enables rapid application development using standard Web technologies
- Built a variety of apps for well-known services including Yelp, Napster, City Seeker, Deezer, etc.
- Main technologies used included JavaScript/ES6, CSS3/SCSS, and HTML5
- Utilized GitHub to ensure code quality and non-breaking progress along with team collaboration
- Wrote tests utilizing Mocha, Chai, and Cucumber to insure applications worked consistently and performed to expectations
- Worked on a team utilizing the scrum agile model to consistently and efficiently deliver work of high value and quality

Front End Web Developer

Oct. 2016 – Apr. 2017

Affirma Consulting

Bellevue, WA

- Built custom web solutions utilizing front-end best practices, HTML, CSS, and JavaScript.
- Worked with a variety of clients: Microsoft, The Pokémon Company, Kaiser Permanente, and Avista
- As a developer, worked on a team consisting of designers, developers, PMs and QA to deliver web experiences that brought full customer satisfaction
- Researched and presented potential solutions for development along with the building of prototypes
- Actively participated in client meetings to guide project direction and drive customer satisfaction

Web Developer

Mar. 2014 – Oct. 2016

Building Information Systems LLC (Building)

Bellevue, WA

- Created and enhanced many custom sites across various companies including many internal Microsoft sites
- Worked on a development team, implementing agile practices to build sites in sprints utilizing VSO and Visual Studio source controlled development
- Designed and implemented my own and others mockups while insuring fidelity to the mockups

Freelance Web Developer/Designer

Sept. 2012 – Mar. 2014

RBL Creative Solutions & The Decker Group

Rexburg, ID / Sammamish, WA

Web Developer

Sept. 2012 – Jun. 2013

Madison School District #321

Rexburg, ID
